

When is it Stock? **and When is it Modified?**

(To try to help you decide which you are...)

First – why did we change (expand) the Classifications? To better focus attention on un-modified examples and give those folks a chance to be recognized as well as the modified examples.

What is Stock?

- **As it left the factory (does not have to be a survivor)**
- **Only modifications that were dealer available at the time**
- **Period Correct modifications**
- **Modifications to make the vehicle safe to use on today's roads**

What is modified?

- **Engine swap other than stock**
- **Engine modified beyond available, orderable options**
- **Custom Paint**
- **Custom Interior**
- **Exterior modified from stock appearance**
- **Fiberglass body panels – if not done at factory or dealer**
- **Kit cars / Home built**
- **Limited production special performance vehicles**
