

Yankee Swap Guidelines

We hold a “Yankee Swap” each year at our “After Holiday Party”. This is a fun and entertaining event.

The Premise

The premise is that everyone brings a wrapped present (one present per person) and it is placed on the table with all the other presents.

If you do not bring a present, please do not take one.

When you check- in at the restaurant, we will cross your name off the list and give each of you a number. That number determines the order in which you go up and select a present.

Once your turn comes, go up to the table and select a present. Please open the present and show it to everyone. If you like a present that has already been claimed, you have the option to swap your present for that or return to your seat with the one you have just opened.

Since the number 1 (first) person has no chance to swap off, they get the last choice to swap their present with any other present!

Present Etiquette

A suggested minimum cost of the gift is about \$10.00 to?? However, you decide what you are comfortable spending.

Presents should be new – if you are re-gifting, please make sure that the item is not used and is in “as new condition” Try to make sure it is something that you would be happy receiving... because you may end up with it.
